

# Project 1

---

## Objectives:

- Create a personal/company/passion project webpage using both HTML and CSS

## Deadline

- 11:59pm on Tuesday, October 5<sup>th</sup>, 2021

## Submission:

On the BrightSpace cours page, under the Assignments section, click Project 1.

In the submission textbox, you must enter the address of your webpage (example: <http://webhome.csc.uvic.ca/~aestey/project1.html>).

You must also attach all of the HTML and CSS files (we suggest image files and any other files you have used) used to create your page and submit them through the BrightSpace Project1 submission page.

## Requirements:

The webpage you create must be a personal/company/team/passion project website. You must upload your final webpage to a web-server (similar to the end of Lab 3).

There are no strict requirements to the style of your webpage, but it will be graded on how appealing and complete each of the required parts are. Below are a number of examples of webpages from previous terms with completely different styles. Come up with your own style that fits with the theme of the type of page you would like to create. **Be creative!**

These sites have menus that lead to sub-pages

and links to social media

## Main page:

- The main page must have some sort of menu directing to at least 3 sub-pages within the website. The sub-pages must share the same style as the main page.
  - Besides that, the sub-pages can be whatever you want, and probably depends on the overall type of page you have created.
    - If it's a personal webpage the sub-pages may be photos, a portfolio, recipes, favourite books or movies, etc.
    - Another example: the No Waste project page had sub-pages that focused on how to reduce waste in the bathroom and in the kitchen.
- The main page must link to at least 3 forms of social media (if you don't have social media, or don't wish to share, you can link to UVic's):
  - Facebook: <https://www.facebook.com/universityofvictoria/>
  - Instagram: <https://www.instagram.com/universityofvictoria/>
  - Twitter: <https://twitter.com/uvic>
  - LinkedIn: <https://www.linkedin.com/school/university-of-victoria/>
  - TikTok: <https://www.tiktok.com/@universityofvictoria?lang=en>
  - (You may use other types of social media sites as well)
- You must also create and provide a link to a resume that you have provided the style rules for. If you decided to make a page for a fake company, you may link to a sub-page that has resumes for each of the team members. You may use the same resume for all members of the team if you create a fake company for this project.
- The format of the main page must change for smaller displays. For example:

Same site and content, but different layout based on the size of the browsing device.

Resume page:

- The goal for this portion of the project is for you to create a professional online resume that you can use in the future for job applications.
- Similar to the main page, we suggest that you are creative when writing the CSS for your resume. Below are a number of examples of a professional-looking resumes that all share the same content, but each has a unique style:

Jessica Claire

dample@live.in | H: 508-278-2542 | C: 781-668-9869 | 123 Main Street, San Francisco, CA 94122

PROFESSIONAL SUMMARY

Successful sales professional with 10+ years experience in large-scale food and retail environments. Implement cost control measures to ensure operations remain within company targets. Maximize bottom-line performance through P&L, merchandising, staff management, loss control and inventory management initiatives.

### Grading Criteria:

Grading item	Points
<b>Submission</b>	
Files uploaded to BrightSpace correctly	1
Files uploaded to web server correctly	1
<b>HTML content</b>	
main page and at least 3 sub-pages	2
navigation bar	3
content on each page	4
<b>CSS style</b>	
social media links	2
resizing with @media	2
style rules applied to all html elements on main pages	4
<b>Resume</b>	
styled differently than other pages	1
resume content (it's okay if you have little/no previous experience)	2
<b>Subjective marks (see guide below)</b>	
overall style design of main HTML pages	5
professional quality of resume styling	3
<b>Total</b>	<b>30</b>

The marks for the Submission, HTML content, CSS style, and Resume will more or less be graded objectively. If you have followed the instructions, you should get the marks.

The Subjective marks will be based on the official University of Victoria grading system. Please refer to the grade descriptions on the following page for more information. The TAs will be looking at all submissions and then categorizing them into one of the five categories based on the overall quality of the main pages and resume page.

The University of Victoria follows a percentage grading system in which the instructor will submit grades in percentages. The University will use the following Senate approved standardized grading scale to assign letter grades. Both the percentage mark and the letter grade will be recorded on the academic record and transcripts.
